CRESVAL
CAPITAL CORP.

Management Discussion and Analysis
For the Year Ended December 31, 2018

The following discussion and analysis of the operations, results and financial position of Cresval Capital Corp. (the “Company” or “Cresval”) should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2018, which are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and the notes thereto.

This Management Discussion and Analysis (“MD&A”) is dated April 30, 2019 and discloses specified information up to that date. Cresval is classified as a “venture issuer” for the purposes of National Instrument 51-102. The audited consolidated financial statements with respect to the year ended December 31, 2018 as compared to the year ended December 31, 2017 and this MD&A have been prepared by management and approved by the Company’s Audit Committee and Board of Directors. This MD&A should be read in conjunction with the audited financial statements of the Company and related notes. All financial information is expressed in Canadian dollars, unless otherwise stated.

We recommend that readers consult the “Cautionary Statement” on the last page of this report.

Additional information relating to the Company can be obtained on SEDAR at www.sedar.com or on the Company’s website at www.cresval.com.

Overview

Cresval was incorporated under the Company Act of British Columbia on July 23, 2001 and is a reporting issuer in the Provinces of British Columbia and Alberta. The common shares of the Company are listed for trading on the TSX Venture Exchange under the symbol “CRV” and on the Frankfurt Stock Exchange under the symbol “CFV”. Its principal business comprises the acquisition and exploration of mineral resource properties, with a current focus on base and precious metal properties located in the Province of British Columbia, Canada.

The Company is in the exploration stage. The Company is classified as a Mineral Exploration company. The financial statements to which this MD&A relates have been prepared on a going concern basis, which presumes the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future. The Company had a working capital deficit of $385,093 at December 31, 2018 and has accumulated losses of $2,844,123 since inception. The Company’s ability to meet its obligations and maintain its operations is contingent upon additional financing or profitable operations in the future.

Strategy, Performance and Outlook

As a result of the Company’s shares being halted from trading pending completion of a plan of arrangement with Tess Inc., the Company did not undertake any private placement activity during the fiscal year. The Company issued 2,855,000 common shares pursuant to option and warrant exercises for aggregate proceeds of $254,250. Subsequent to the year ended December 31, 2018, the Company terminated the proposed plan of arrangement with Tess Inc. due to Tess' inability to complete the application for listing of the resulting issuer, TessPay Inc. The Company's common shares resumed trading on February 21, 2019.

The Company completed $12,797 in exploration expenditures on its New Raven property in anticipation of a summer 2019 work program.

Mineral Property Interests

The Company currently has interests in three exploration projects. The first property, known as the MIKE Property, located 40 km west-northwest of Goldbridge, British Columbia in the Lillooet Mining Division consists of 27 contiguous mineral claims and covers an area of approximately 11,127 hectares. During the year ended December 31, 2018, the Company planned a detailed work program for further surface exploration in order to delineate priority drill targets.

The second property, the New Raven property, is located 15 km southwest of Lillooet, British Columbia, in the Lillooet Mining Division and consists of 4 mineral claims, covering an area of 2,700 hectares. The Company's completed assessment reporting on the property and is planning a summer 2019 exploration work program.

The third property, known as the Aumax property, is located approximately 16 km southwest of Lillooet, British Columbia and consists of 5 mineral claims, covering an area of approximately 1,087 hectares. The Company did not undertake work on this property during the year ended December 31, 2018, however; it maintains the claims in good standing.

Review of Operations

Three months ended December 31, 2018 compared with the three months ended December 31, 2017

		3 Months Ended Dec. 31, 2018		3 Months Ended Dec. 31, 2017
General and Administrative Expenses				
Consulting and management fees	$	40,500	$	36,000
Depreciation		182		240
Office supplies and services		5,871		(708)
Professional fees		17,535		18,329
Shareholder information and communications		59,624		4,947
Share transfer, listing and filing fees		3,364		3,346
Travel		5,156		-
		(132,232)		(62,154)
Total Loss and Comprehensive Loss		(132,232)		(62,154)
Basic and Diluted Loss per Share	$	-	$	-
Weighted Average Shares Outstanding		26,848,168		24,469,001

- Consulting and management fees increased to $40,500 for the three months ended December 31, 2018 compared to $36,000 for the three months ended December 31, 2017. This is due to increases in both consulting and management fees and is attributable to a higher level of corporate activity surrounding exploration planning and the proposed business combination.
- Office supplies and services increased to $5,871 for the three months ended December 31, 2018

compared to $(708) for the three months ended December 31, 2017 and is due to a decrease in office services.

- Professional fees remained fairly consistent at $17,535 for the three months ended December 31, 2018 from $18,329 in the three months ended December 31, 2017.
- Shareholder information and communications increased to $59,624 for the three months ended December 31, 2018 compared to $4,947 for the three months ended December 31, 2017. This is a result of the Company engaging a marketing and communications consultant to increase the Company's market profile in anticipation of a resumption in trading.
- Share transfer, listing and filing fees remained consistent at $3,364 for the three months ended December 31, 2018 compared to $3,346 for the three months ended December 31, 2017.

Year ended December 31, 2018 compared with the year ended December 31, 2017

	Year Ended Dec. 31, 2018	Year Ended Dec. 31, 2017
General and Administrative Expenses		
Consulting and management fees	$ 155,615	$ 96,000
Depreciation	811	1,069
Interest income	(54)	(84)
Office supplies and services	20,909	8,404
Professional fees	17,535	18,329
Shareholder information and communications	74,395	11,007
Share transfer, listing and filing fees	20,320	17,285
Travel	5,156	-
	(294,687)	(152,010)
Total Net Loss and Comprehensive Loss	$ (294,687)	$ (152,010)
Basic and Diluted Loss per Share	$ (0.01)	$ (0.01)
Weighted Average Shares Outstanding	26,848,168	24,469,001

- Consulting and management fees increased to $155,615 for the year ended December 31, 2017 compared to $96,000 for the year ended December 31, 2017. This is due to increases in both consulting and management fees and is attributable to a higher level of corporate activity surrounding exploration planning and the proposed business combination.
- Interest income decreased slightly to $54 from $84 and is attributable to a lower amount of interest paid on reclamation bonds during the year.
- Office supplies and services increased to $20,909 for the year ended December 31, 2018 compared to $8,404 for the year ended December 31, 2017 and is due to increased costs for rented office space, supplies and services.
- Professional fees remained fairly consistent at $17,535 for the year ended December 31, 2018 compared to $18,329 for the year ended December 31, 2017.
- Shareholder information and communications increased to $74,395 for the year ended December 31, 2018 compared to $11,007 for the year ended December 31, 2017. This is a result of the Company engaging a marketing and communications consultant to increase the Company's market profile in anticipation of a resumption in trading.
- Share transfer, listing and filing fees increased to $20,320 for the year ended December 31, 2018

compared to $17,285 for the year ended December 31, 2017 and is a result of increased corporate filings in connection with the proposed transaction.

SELECTED ANNUAL INFORMATION

The following table provides a summary of the Company's financial operations for the last three fiscal years ended December 31. For more detailed information, refer to the Company's audited annual financial statements

	Dec. 31, 2018	Dec. 31, 2017	Dec. 31, 2016
	$	$	$
Revenues	-	-	-
G&A Expenses (including option benefits)	294,687	152,010	111,153

- Options	7,500	7,500	7,500	7,500	642,500	642,500	642,500	642,500

Results of operations can vary significantly by quarter, as a result of a number of factors. The Company's level of activity and expenditures during a specific quarter are determined by the Company's working capital position, the availability of external financing, the time required to gather, analyze and report on geological data related to its properties, the amount of stock options granted, the number of personnel required to support the level of corporate activity and the seasonality of exploration programs undertaken on the Company's mineral properties.

Liquidity and Capital Resources

Since inception, the Company has incurred cumulative losses of $2,844,123 and has a working capital deficiency at December 31, 2018 of $385,093 (2017 – $308,607).

The Company has financed its operations to date primarily through the issuance of common shares for private placements. The Company continues to seek capital through various means including the issuance of equity and/or debt.

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to have profitable operations in the future.

The Company's future capital requirements will depend on many factors, including costs of exploration and development of the properties, cash flow from operations, costs to complete well production if warranted, competition and global market conditions. The Company's growing working capital needs may require it to obtain additional capital to operate its business.

The Company will depend partly on outside capital to complete the exploration and development of its resource properties. Such outside capital will include the sale of additional common shares and debt financing. There can be no assurance that capital will be available as necessary to meet these continuing exploration and development costs or, if the capital is available, that it will be on terms acceptable to the Company. The issuances of additional equity securities by the Company may result in a significant dilution in the equity interests of its current shareholders. If the Company is unable to obtain financing in the amounts and on terms deemed acceptable, the business and future success may be adversely affected.

Related Party Transactions

Management services by the Company’s officers are provided on a contract basis. Additionally, the Company shares its premises and certain administrative costs with a related company, and reimburses this related company for its share of direct costs. These transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

The Company has identified its directors and officers as its key management personnel. The compensation costs for key management personnel for the years ended December 31, 2018 and 2017 are as follows:

	Dec. 31, 2018	Dec 31, 2017
Rent	$ 12,757	$ -
Consulting fees and management fees	153,000	96,000
	$ 165,757	$ 96,000

Other Related Party Transactions

During the year ended December 31, 2018 $1,354 (2017 - $1,525) was charged for office, occupancy and miscellaneous costs and salaries, and administrative services paid on behalf of the Company by Oniva International Services Corp. ("Oniva") a company related by common management.

Due to Related Parties

As at December 31, 2018 there was $253,088 due to the President of the Company, Lee Ann Wolfin (2017 - $236,433), $1,000 due to the Company's former CEO, Louis Wolfin (2017 - $1,000), $17,529 due to the Company's CFO, Pamela Saulnier (2017 - $8,100) and $94,500 (2017 - $31,500) due to a director of the Company. The amounts due to related parties are non-interest bearing, unsecured and due on demand.

Critical Judgments and Estimates

The preparation of these financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the amount of revenues and expenses for the years reported. These estimates are reviewed periodically, and as adjustments become necessary, they are reported in operations in the period they become known.

Off-balance sheet arrangements

The Company has no off-balance sheet arrangements.

Financial Instruments

As at December 31, 2018, the Company's financial instruments are comprised of cash, receivables, accounts payable and accrued liabilities and due to related parties. The carrying value of receivables, accounts payable and accrued liabilities and due to related parties approximate their fair values due to the relatively short periods to maturity of these financial instruments.

The Company provides information about its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value.

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company has valued its cash using Level 1 inputs as at December, 2018. The fair value of the Company's, due to related parties and trade and other payables approximate their carrying values because of the short-term nature of these instruments.

The Company's cash is held through a Canadian chartered bank. The Company's current policy is to invest excess cash in a guaranteed investment certificate administered by a Canadian chartered bank. The Company has no debt instruments.

Proposed Transactions

In January 2018, the Company signed an agreement to complete a share transaction with Tess Inc. ("Tess"), a private company involved in developing a blockchain-based payment service, by way of a plan of arrangement. The plan of arrangement will result in a reorganization of the Company's share capital and amalgamation with Tess to form a new listed corporation. Upon completion, existing shareholders of the Company would own approximately 6.8% of the new listed entity on a fully diluted basis. The transaction would be considered to be a reverse takeover transaction whereby the shareholders of Tess control of the Company through the new listed entity. The transaction is subject, regulatory and shareholder approval and due diligence considerations.

On February 15, 2019, the Company terminated the proposed plan of arrangement.

Risks and Uncertainties

The acquisition and exploration of mineral properties involves a high degree of risk, and the successful achievement of a profitable operation cannot be assured. Many exploration programs do not result in the discovery of mineralization; moreover, mineralization discovered may not be of sufficient quantity or quality to be profitably mined. Costs of finding and evaluating an ore body are substantial, and may take several years to complete. The Company must first overcome many risks associated with an early stage exploration property. Outstanding items to be completed include, but are not limited to, identification and quantification of a commercially viable ore body, confirmation of the Company's interest in the underlying claims and leases, completion of a feasibility study, funding of all costs to a commercial operating venture, completion of the permitting process, detailed engineering and procurement of a processing plant, and constructing a facility to support the mining activity. Construction and operational risks including, but not limited to, equipment and plant performance, metallurgical, environmental, cost estimation accuracy, and workforce performance and dependability will all affect the profitability of an operating property.

External financing, primarily through the issuance of common shares, will be required to fund the Company's activities. There can be no assurance that the Company will be able to raise the requisite financing in the future.

Recent Accounting Pronouncements

The Company has adopted the following new standard, along with any consequential amendments, effective January 1, 2018. These changes were made in accordance with the applicable transitional provisions and did not impact the Company's consolidated financial statements:

IFRS 9, "Financial Instruments: Classification and Measurement" is effective for annual periods beginning on or after January 1, 2018. The Company adopted IFRS 9 retrospectively, without restatement of prior year financial statements. IFRS 9 replaces the provisions of IAS 39, Financial Instruments: Recognition and Measurement ("IAS 39") that relate to the recognition, classification, and measurements of financial assets and financial liabilities, derecognition of financial instruments and impairment of financial assets. IFRS 9 uses a single approach to determine whether a financial asset is classified and measured at amortized cost or fair value. The approach in IFRS 9 is based on how the Company manages its financial instruments and the contractual cash flow characteristics of the financial asset. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9. The application of IFRS 9 did not impact the Company's classification and measurement of financial assets and liabilities, and there was also no impact to the carrying value of any of the Company's financial assets or liabilities on the date of transition.

Accounting pronouncements not yet effective

Certain pronouncements were issued by the IASB or the IFRIC that are mandatory for accounting periods beginning after January 1, 2019 or later periods. The following new standards, amendments and interpretations that have not been early adopted in these financial statements, are not expected to have a material effect on the Company's future results and financial position:

Effective for annual periods beginning on or after January 1, 2019:

IFRS 16, Leases. IFRS 16 specifies how an IFRS reporter will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. The extent of the impact of adoption has not yet been determined.

Outstanding Share Data as of December 31, 2018 and April 30, 2019

Management's Responsibility for Financial Statements

The Company's certifying officers, based on their knowledge, having exercised reasonable diligence, are also responsible to ensure that these filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which is it was made, with respect to the period covered by these filings, and these financial statements together with the other financial information included in these filings. The Board of Directors' approves the Financial Statements and MD&A and ensures that management has discharged its financial responsibilities. The Board's review is accomplished principally through the Audit Committee, which meets periodically to review all financial reports, prior to filing.

Cautionary Statement

This MD&A is based on a review of the Company's operations, financial position and plans for the future based on facts and circumstances as of April 30, 2019. Except for historical information or statements of fact relating to the Company, this document contains "forward-looking statements" within the meaning of applicable Canadian securities regulations. There can be no assurance that such statements will prove to be accurate, and future events and actual results could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from our expectations are disclosed in the Company's documents filed from time to time via SEDAR with the Canadian regulatory agencies to whose policies we are bound. Forward-looking statements are based on the estimates and opinions of management on the date the statements are made, and we do not undertake any obligation to update forward-looking statements should conditions or our estimates or opinions change. These statements involve known and unknown risks, uncertainties, and other factor that may cause the Company's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievement expressed or implied by these forward-looking statements.
